WHO: Wade Baker, principal author of the DBIR, Verizon

BACKGROUND: Now in its sixth year of publication, the "[Verizon 2013 Data Breach Investigations Report](#)" includes 621 confirmed data breaches as well as more than 47,000 reported security incidents. Over the entire nine-year range of this study, that tally now exceeds 2,500 data breaches and 1.2 billion compromised records. Verizon is joined by 18 organizations from around the world that contributed data and analysis to this year's report.

Verizon offers a comprehensive suite of security solutions in more than 50 countries. For more information, visit us at <http://www.verizonenterprise.com/solutions/security/>.
