

Sears Holdings says they have found no information to date indicating a breach
Friday, February 28, 2014 07:51:16 PM (GMT)

- Company has put out a statement in response to earlier reports of a data breach occurring.
 - "There have been rumors and reports throughout the retail industry of security incidents at various retailers, and we are actively reviewing our systems to determine if we have been a victim of a breach. We have found no information based on our review of our systems to date indicating a breach."
