

Verizon Small Business Center's Free Webinar on April 25 to Feature Security Experts Who Will Offer Tips on Protecting Businesses From Cybercriminals
Tuesday, April 24, 2012 01:24:08 PM (GMT)

NEW YORK, April 24, 2012 /PRNewswire/ -- The [Verizon Small Business Center](#) will present another free webinar on Wednesday (April 25), this one featuring a panel of security experts who will offer low-cost yet effective steps that business owners should take to protect their company from cybercriminals. Participating on the panel will be: Quinton Jones, SMB solutions architect with McAfee, the world's largest dedicated security technology company; Robby Gulri, vice president of products with Echoworx, offering managed encryption services; and Marc Spitler, senior analyst with Verizon's Research Investigations Solutions Knowledge (RISK) team.

In this one-hour, live webinar discussion, these industry experts will also discuss results from Verizon's fifth annual Data Breach Investigation Report, which reviewed 855 confirmed security breaches accounting for a combined 174 million compromised records.

Follow [@VZSmallBiz](#) on Twitter (or www.twitter.com/VZSmallBiz) for key security tips and insights during this live webinar, or search in [Twitter](#) for [#vzsmb](#). The free webinar series presented by the [Verizon Small Business Center](#) keeps small businesses informed to help them gain a competitive edge.
