Business Wire is the official news wire for CARTES Secure Connexions 2015. Listed below are exhibitor profiles from the show.

**Company:** Access-IS  
**Stand:** 4L 083  
**Web:** [www.access-is.com](http://www.access-is.com)

Access-IS designs and manufactures innovative identity document readers, which incorporate OCR, MSR, RFID/NFC & smartcard reading as well as specialized 2D barcode readers that enable fast and accurate capture and transfer of information into electronic systems.

New for Cartes:

The ATOM Document Reader™, an all-new multi-illumination eMRTD reader. Representing a major leap forward in aesthetic design with dramatically improved performance, it sets the ID document reader Standard for years to come.

VAL100/110 On-Board and Gate Validators, designed for a variety of public transportation automatic fare collection systems they combine barcode and NFC/RFID reading to provide a single target for tickets.

**Company:** id3 Technologies  
**Stand:** 4J079  
**Web:** [www.id3.eu](http://www.id3.eu)

Founded in 1990 in the heart of the French "Silicon Valley" near Grenoble, id3 Technologies develops and provides identity, security and digital signature solutions. Id3 is recognized as a leading expert in biometrics.

To date, 30 million licenses of its Match on Card algorithms have been issued, and over 30,000 fingerprint recognition modules have been integrated into many access control systems. Many banks, government and legal organizations use their biometric signature solutions.

id3 is proud to present on Cartes its multimodal biometrics ecosystem: Central AFIS, online or offline mobile devices (PDA, tablet, mobile terminal).

**Company:** ISRA CARDS  
**Stand:** 3C011  
**Web:** <http://www.isra.fr>

ISRA is a French independent business specialized in designing and manufacturing plastic cards and smart devices fit for a variety of applications: retail, loyalty programs, ticketing, identification, access control and transportation systems.

ISRA supports its product range through an extensive services offering, from card and smart device personalization and encoding to mailing and fulfillment applications (enveloping and shipping) and creative packaging design.

Founded 40 years ago, ISRA was initially specialized in silkscreen printing, including printing of window stickers. By foreseeing market evolutions and trends and by adapting to emerging markets demands through permanent innovation, ISRA embraced a new strategic orientation and started producing plastic cards, scratch cards, smart cards and NFC-based smart devices.

**Company:**

**Keypasco**

**Stand:**

**4N080**

**Web:**

<https://www.keypasco.com>

With more than 25 years of individual experience in IT security, Keypasco's founders are the minds behind some of the revolutionary authentication technology solutions used today. Keypasco offer a patent-approved secure authentication and secure mobility solution to 13.9M end users in the online gaming and financial/banking industry.

Keypasco has earned the Frost & Sullivan 2014 New Product Innovation Leadership Award for Secure Authentication for its secure multi-factor authentication solution, which is described by Frost & Sullivan as a game changer and "with its Vakten software, Keypasco has the ability to disrupt the secure authentication market, and support the growing need for secure mobility."
