**Thursday, December 05, 2019 01:30:00 PM (GMT)**

- Identical Sales without fuel grew 2.5% and digital sales grew 21%
- EPS of \$0.32; Adjusted EPS of \$0.47 which includes a \$0.03 out of period charge
- Achieved Operating Profit of \$254 million; Adjusted FIFO Operating Profit of \$653 million
- EPS and Operating Profit results affected by several adjustment items, primarily by a non-cash impairment charge related to an investment in Lucky's Market
- Alternative profit streams on track to contribute an incremental \$100 million in operating profit in 2019 vs. 2018
- Confirms Identical Sales, Adjusted FIFO Operating Profit and Adjusted EPS guidance for 2019 and 2020

CINCINNATI, Dec. 5, 2019 /PRNewswire/ -- The Kroger Co. (NYSE: KR) today reported its third quarter 2019 results and provided a *Restock Kroger* progress update on the company's three-year transformation plan.

**Comments from Chairman and CEO Rodney McMullen**

"Kroger's customer obsession and focus on operational excellence continued to generate positive results in the third quarter. Identical sales were the strongest since we started *Restock Kroger* and gross margin rate, excluding fuel and pharmacy, improved slightly in the quarter. At the same time, we continued to reduce costs as a percentage of sales.

We are using the power of Kroger's stable and growing supermarket business to create meaningful incremental operating profit through the alternative profit stream businesses, which adds up to a business built for long-term growth that generates consistently attractive total shareholder returns. Kroger continues to generate strong and durable free cash flow as reflected by the fact that the company has reduced debt by \$1.5 billion over the prior four quarters and continues to increase its dividend to create shareholder value.

*Restock Kroger* is the right framework to reposition our business to create value for all of our stakeholders, both today and in the future."

**Financial Results**

	3Q19 (\$ in millions; except EPS)	3Q18 (in millions; except EPS)
ID Sales (Table 4)	2.5%	1.7%
EPS	\$0.32	\$0.39
Adjusted EPS (Table 6)	\$0.47	\$0.48
Operating Profit	\$254	\$647
Adjusted FIFO Operating Profit (Table 7)	\$653	\$664
FIFO Gross Margin Rate*	Decreased 24 basis points	
OG&A Rate*	Decreased 15 basis points	

\*without fuel and adjustment items, if applicable

Total company sales were \$28.0 billion in the third quarter, compared to \$27.8 billion for the same period last year. Excluding fuel and dispositions, sales grew 2.7%.

Gross margin was 22.1% of sales for the third quarter. The FIFO gross margin rate excluding fuel decreased 24 basis points, primarily driven by industry-wide lower gross margin rates in pharmacy and continued growth in the specialty pharmacy business. Gross margin rate excluding fuel and pharmacy improved slightly.

LIFO charge for the quarter was \$23 million, compared to \$12 million for the same period last year, driven by higher inflation in dry grocery, pharmacy and dairy.

The Operating, General & Administrative rate decrease of 15 basis points is due to broad based improvement of *Restock Kroger* cost savings initiatives.

Third quarter results include an out-of-period charge of \$29 million related to an adjustment for a provision of a pharmacy contract. This amount reduced third quarter adjusted net earnings per diluted share by \$0.03. There is no effect on earnings guidance as a result of this contract going forward.

As a result of a portfolio review, Kroger has decided to divest its interest in Lucky's Market and recognized a non-cash impairment charge of \$238 million in the third quarter, and the portion of this charge attributable to Kroger is \$131 million.

The income tax rate for the third quarter was 35.6%. The income tax rate is higher than the adjusted income tax rate because a portion of the non-cash impairment charge related to Lucky's Market is not attributable to Kroger (Table 9).

**Capital Allocation Strategy**

Kroger's financial strategy is to use its free cash flow to drive growth while also maintaining its current investment grade debt rating and returning capital to shareholders. The company actively balances the use of its cash flow to achieve these goals.

Consistent with its financial strategy, Kroger reduced net total debt by \$1.5 billion over the last four quarters. Kroger's net total debt to adjusted EBITDA ratio is 2.50, compared to 2.72 a year ago (see Table 5). The company's net total debt to adjusted EBITDA ratio target range is 2.30 to 2.50.

As a result of being within its targeted debt range, Kroger plans to initiate share repurchases in the fourth quarter under its \$1 billion board authorization.

Earlier this year, Kroger increased the dividend by 14 percent, marking the 13<sup>th</sup> consecutive year of dividend increases.

These include the specific risk factors identified in "Risk Factors" and "Outlook" in our annual report on Form 10-K for our last fiscal year and any subsequent filings, as well as the following:

- Kroger's ability to achieve sales, earnings, incremental FIFO operating profit, and free cash flow goals may be affected by: labor negotiations or disputes; changes in the types and numbers of businesses that compete with Kroger; pricing and promotional activities of existing and new competitors, including non-traditional competitors, and the aggressiveness of that competition; Kroger's response to these actions; the state of the economy, including interest rates, the inflationary and deflationary trends in certain commodities, changes in tariffs, and the unemployment rate; the effect that fuel costs have on consumer spending; volatility of fuel margins; changes in government-funded benefit programs; manufacturing commodity costs; diesel fuel costs related to Kroger's logistics operations; trends in consumer spending; the extent to which Kroger's customers exercise caution in their purchasing in response to economic conditions; the uncertain pace of economic growth; changes in inflation or deflation in product and operating costs; stock repurchases; Kroger's ability to retain pharmacy sales from third party payors; consolidation in the healthcare industry, including pharmacy benefit managers; Kroger's ability to negotiate modifications to multi-employer pension plans; natural disasters or adverse weather conditions; the potential costs and risks associated with potential cyber-attacks or data security breaches; the success of Kroger's future growth plans; the ability to execute on *Restock Kroger*; and the successful integration of merged companies and new partnerships. Our ability to achieve these goals may also be affected by our ability to manage the factors identified above. Our ability to execute our financial strategy may be affected by our ability to generate cash flow.
- Kroger's ability to achieve these goals may also be affected by Kroger's ability to manage the factors identified above. Kroger's ability to execute its financial strategy may be affected by its ability to generate cash flow.
- Kroger's effective tax rate may differ from the expected rate due to changes in laws, the status of pending items with various taxing authorities, and the deductibility of certain expenses.

Note: Certain percentages may not sum due to rounding.

Note: The Company defines First-In First-Out (FIFO) gross profit as sales minus merchandise costs, including advertising, warehousing and transportation, but excluding the Last-In First-Out (LIFO) charge.  
The Company defines FIFO gross margin, as described in the earnings release, as FIFO gross profit divided by sales.  
The Company defines FIFO operating profit as operating profit excluding the LIFO charge.  
The Company defines FIFO operating margin, as described in the earnings release, as FIFO operating profit divided by sales.  
The above FIFO financial metrics are important measures used by management to evaluate operational effectiveness. Management believes these FIFO financial metrics are useful to investors and analysts because they measure our day-to-day operational effectiveness.

- (a) Merchandise costs ("COGS") and operating, general and administrative expenses ("OG&A") exclude depreciation and amortization expense and rent expense which are included in separate expense lines.
- (b) LIFO charges of \$23 and \$12 were recorded in the third quarter of 2019 and 2018, respectively. For the year to date period, LIFO charges of \$69 and \$39 were recorded for 2019 and 2018, respectively.

Note: Products and services related primarily to Kroger Personal Finance and Media, which were historically accounted for as an offset to OG&A, are now classified as a component of sales, except for certain amounts in Media, which are netted against COGS. These prior-year amounts have been reclassified to conform to current-year presentation, which is consistent with our Restock Kroger initiative and view of the products and services as part of our core business strategy. This is also more consistent with industry practice.

Management believes free cash flow is a useful metric to investors and analysts because it demonstrates our ability to make share repurchases and other strategic investments, pay dividends and manage debt levels.

**Table 4. Supplemental Sales Information**  
(in millions, except percentages)  
(unaudited)

Items identified below should not be considered as alternatives to sales or any other GAAP measure of performance. Identical sales is an industry-specific measure and it is important to review it in conjunction with Kroger's financial results reported in accordance with GAAP. Other companies in our industry may calculate identical sales differently than Kroger does, limiting the comparability of the measure.

IDENTICAL SALES (a)				
	THIRD QUARTER		YEAR-TO-DATE	
	2019	2018	2019	2018
EXCLUDING FUEL	\$ 24,319	\$ 23,717	\$ 80,751	\$ 79,156
EXCLUDING FUEL	2.5%	1.7%	2.0%	1.8%

(a) Kroger defines identical sales, excluding fuel, as sales to retail customers, including sales from all departments at identical supermarket locations, Kroger Specialty Pharmacy businesses, jewelry and ship-to-home solutions. Kroger defines a supermarket as identical when it has been in operation without expansion or relocation for five full quarters. Additionally, sales from all acquired businesses are treated as identical as if they were part of the Company in the prior year. Products and services related primarily to Kroger Personal Finance, which were historically accounted for as an offset to OG&A, are now classified as a component of sales. These prior-year amounts have been reclassified to conform to current-year presentation and included in identical sales in 2019 and 2018, which is consistent with our Restock Kroger initiative and view of the products and services as part of our core business strategy. This is also more consistent with industry practice. This change increased identical sales for the third quarter and year-to-date periods of 2018.

(in millions, except for ratio)  
(unaudited)

The items identified below should not be considered an alternative to any GAAP measure of performance or access to liquidity. Net total debt to adjusted EBITDA is an important measure used by management to evaluate the Company's access to liquidity. The items below should be reviewed in conjunction with Kroger's financial results reported in accordance with GAAP.

The following table provides a reconciliation of net total debt.

	November 9, 2019	November 10, 2018	Change

(a) The adjustment for impairment of Lucky's Market attributable to The Kroger Co. excludes a \$107 net loss attributable to the minority interest of Lucky's Market.

**Table 6. Net Earnings Per Diluted Share Excluding the Adjustment Items**  
(in millions, except per share amounts)  
(unaudited)

The purpose of this table is to better illustrate comparable operating results from our ongoing business, after removing the effects on net earnings per diluted common share for certain items described below. Adjusted net earnings and adjusted net earnings per diluted share are useful metrics to investors and analysts because they present more accurately year-over-year comparisons for net earnings and net earnings per diluted share because adjusted items are not the result of normal operations. Items identified in this table should not be considered alternatives to net earnings attributable to The Kroger Co. or any other GAAP measure of performance. These items should not be reviewed in isolation or considered substitutes for the Company's financial results as reported in accordance with GAAP. Due to the nature of these items, as further described below, it is important to identify these items and to review them in conjunction with the Company's financial results reported in accordance with GAAP.

The following table summarizes items that affected the Company's financial results during the periods presented.

**Table 7. Operating Profit Excluding the Adjustment Items**  
(in millions)  
(unaudited)

The purpose of this table is to better illustrate comparable operating results from our ongoing business, after removing the effects on operating profit for certain items described below. Adjusted FIFO operating profit is a useful metric to investors and analysts because they present more accurately year-over-year comparisons for operating profit because adjusted items are not the result of normal operations. Items identified in this table should not be considered alternatives to operating profit or any other GAAP measure of performance. These items should not be reviewed in isolation or considered substitutes for the Company's financial results as reported in accordance with GAAP. Due to the nature of these items, as further described below, it is important to identify these items and to review them in conjunction with the Company's financial results reported in accordance with GAAP.

The following table summarizes items that affected the Company's financial results during the periods presented.

	THIRD QUARTER		YEAR-TO-DATE

**Table 8. 2018 Sales Reclassification**  
(in millions)  
(unaudited)

Products and services related primarily to Kroger Personal Finance and Media, which were historically accounted for as an offset to OG&A, are now classified as a component of sales, except for certain amounts in Media, which are netted against COGS. These prior-year amounts have been reclassified to conform to current-year presentation, which is consistent with our Restock Kroger initiative and view of the products and services as part of our core business strategy. This is also more consistent with industry practice.

The following tables summarize the Company's third quarter and first three quarters of 2018 sales reclassification:

	THIRD QUARTER AS PREVIOUSLY STATED 2018	RECLASSIFICATION 2018	RECLASSIFIED THIRD QUARTER 2018
