

Visa Canada recognized on the 2018 List of Best Workplaces Managed by Women Tuesday, December 04, 2018 06:07:00 PM (GMT)

TORONTO, Dec. 4, 2018 /CNW/ - Visa Canada is proud to announce that the organization has been named on the 2018 list of Best Workplaces™ Managed by Women. Visa Canada received this honour after a thorough and independent analysis conducted by Great Place to Work®.

"Visa Canada is an organization made up of many strong female leaders, so it's gratifying to be recognized on the 2018 List of Best Workplaces Managed by Women," said Stacey Madge, Country Manager and President, Visa Canada. "We are proud that eight out of 11 executives, as well as 53 per cent of our employees, are women working together towards our mission to connect the world through the most innovative, reliable and secure digital payment network."

The company has many accolades to be proud of over the past year, including being recognized as a Best Workplace in Technology. In 2018, Visa Canada announced "Tap to Pay" on Vancouver transit, extended its PayPal partnership into Canada and launched real-time payments capabilities. Internally, Visa launched employee-driven committees that drive cross-functional collaboration in areas ranging from employee engagement through diversity and inclusion to charitable giving and volunteer activities.

The list of Best Workplaces Managed by Women is based on direct feedback from employees of the hundreds of organizations that were surveyed by Great Place to Work.

To be eligible for this list, organizations must be Great Place to Work-certified in the past year and have a female President or CEO. Great Place to Work determined this based on an overall Trust Index score from the employees.

About Visa Inc.

Visa Inc. (NYSE: V) is the world's leader in digital payments. Our mission is to connect the world through the most innovative, reliable and secure payment network - enabling individuals, businesses and economies to thrive. Our advanced global processing network, VisaNet, provides secure and reliable payments around the world, and is capable of handling more than 65,000 transaction messages a second. The company's relentless focus on innovation is a catalyst for the rapid growth of connected commerce on any device, and a driving force behind the dream of a cashless future for everyone, everywhere. As the world moves from analog to digital, Visa is applying our brand, products, people, network and scale to reshape the future of commerce. For more information, visit visa.ca and @VisaNewsCA.
