Former Attorney General of Louisiana, Charles C. Foti, Jr., Esq., a partner at the law firm of Kahn Swick & Foti, LLC ("KSF"), announces that KSF has commenced an investigation into Equifax Inc. (NYSE: EFX).

On September 7, 2017, Equifax revealed that a massive data breach, described as a "cybersecurity incident potentially impacting 143 million U.S. consumers" had been discovered over a month prior, on July 29, 2017. The breach occurred from mid-May through July 2017 and compromised consumer data including names, Social Security numbers, birth dates, driver's-license numbers and addresses as well as "credit card numbers for approximately 209,000 U.S. consumers."

As also reported that same day, regulatory filings showed that on August 1st and 2nd - after the discovery of the breach but before it was revealed to the public - three senior Equifax executives sold shares in the Company worth almost \$1.8 million combined, none of which were part of planned divestments or 10b5-1 scheduled trading plans.

On this news, the price of Equifax's shares plummeted more than 13% in after-hours trading.

KSF's investigation is focusing on whether Equifax and/or its officers and directors violated state or federal securities laws.
