

Equifax insurance likely inadequate to cover breach costs -- Bloomberg
Sunday, September 10, 2017 06:42:16 PM (GMT)

- Equifax's insurance against cyber breaches is likely inadequate to cover the company's costs associated with the recent data breach, sources say.
- The company's policy would probably cover about \$100-150M. Though the company's total expense may not be known for years, it could be multiples higher than the insurance payout.
