

XYPRO Technology Corporation Named 2013 HP AllianceOne Partner of the Year
Thursday, June 13, 2013 10:45:00 AM (GMT)

XYPRO Technology Corporation, the market leader in HP NonStop Server security, audit, compliance, and FIPS-validated encryption solutions, today announced that it has been recognized with an HP AllianceOne Partner of the Year Award in the Security category at HP Discover in Las Vegas.

The HP AllianceOne Partner of the Year Award for Security honors XYPRO for delivering comprehensive system, user and data security to protect mission-critical applications and supporting infrastructure. XYPRO's solutions provide role-based access control, single sign-on and multi-factor authentication, discretionary and dynamic object security, state-of-the-art encryption (FIPS 140-2), innovative encryption key management, automated system vulnerability and compliance assessment, and consolidated security event monitoring and auditing.

"XYPRO is very pleased to be recognized by HP as a distinguished and valued partner," said Kenneth Scudder, Senior Director, Business Development and Strategic Alliances at XYPRO. "XYPRO's solutions are specifically designed to protect HP NonStop Server systems and provide customers strong security and compliance for their critical business applications.

"Congratulations to XYPRO on their HP AllianceOne Partner of the Year award for Security," said Doug Oathout, vice president, Channel and Alliances, Enterprise Marketing, HP. "XYPRO has demonstrated outstanding dedication and expertise in addressing the business and technology needs of its customers by helping them reduce risk with comprehensive system and application security, achieve regulatory compliance, and reduce costs of security administration."
